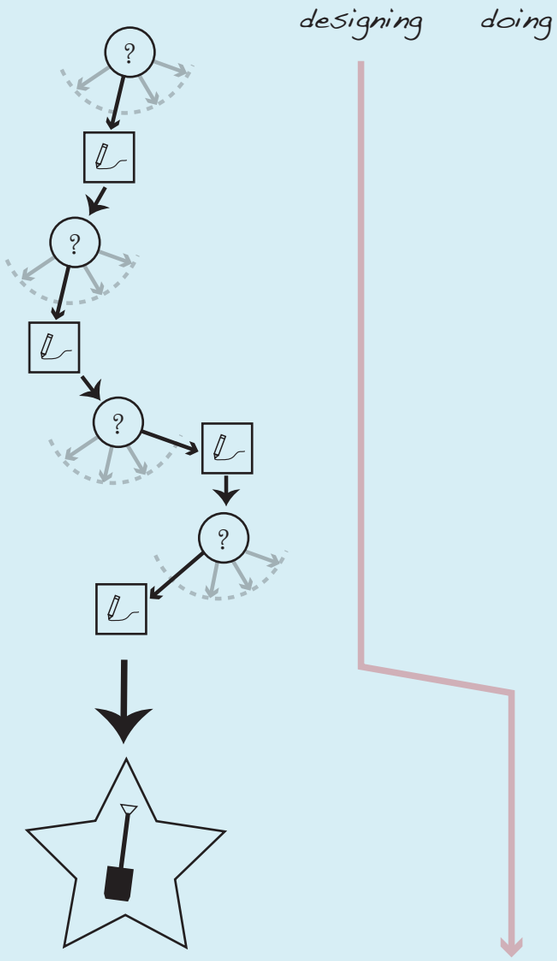
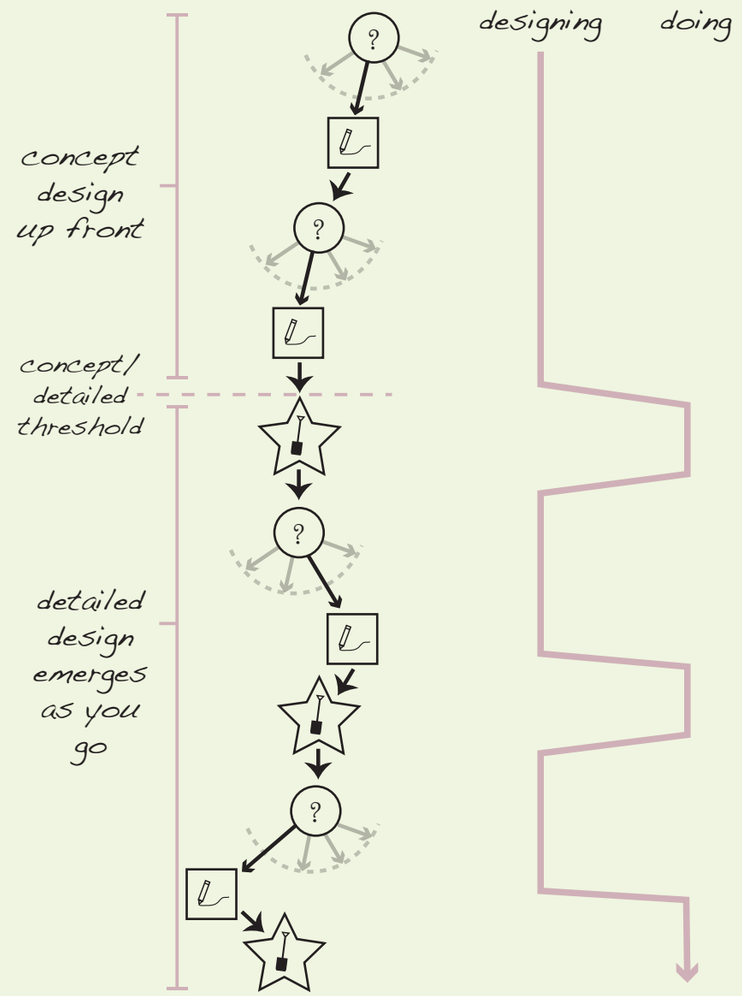
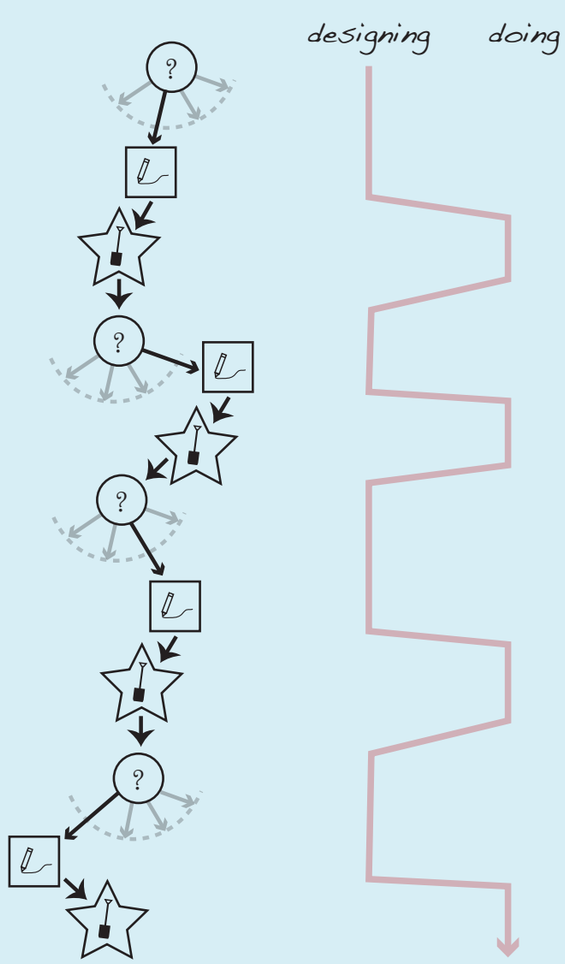
CDDUF
(fabricating)



CDUFDDAYG
(fabricate-generate hybrid)



CDDAYG
(generating)



KEY

? = a decision

= options

= a testing filter representing any way of selecting an option (i.e., of making the decision)

= an option that fails the test

= an option that passes the test

= the act of implementing a decision or chain of decisions

= the drawing up on a design diagram the decision just made

= a prompting of the next action (whether more deciding or doing)

CDDUF = concept and detailed design up front

CDUFDDAYG = concept design up front and detailed design emerges as you go

CDDAYG = concept and detailed design emerges as you go
