

# fabricating

vs

# generating

## KEY

⊙ = a decision

↙ = an option that fails the test

□ = the drawing up on a design diagram the decision just made

↔ = options

↓ = an option that passes the test

➔ = a prompting of the next action (whether more deciding or doing)

⋯ = a testing filter representing any way of selecting an option (i.e., of making the decision)

★ = the act of implementing a decision or chain of decisions
